- Storage furniture is a major priority in a kid's room. Remember that kids have hundreds of items, and it's impossible to get them to give any up.
- Tree's *Pure* collection features clean, simple lines and stylish, timeless pieces for kids to grow up with. Plus, it's done in sustainably sourced walnut and oak.
- 儲物屬關鍵。孩子擁有多件玩具、衣服、運動用品、遊戲和藝術項目，而且難作取捨。
- Tree供應出色儲物方案。Pure系列線條簡約而時尚，並以透過可持續渠道搜購得來的胡桃木和橡木製作。

“I THINK IT'S IMPORTANT TO INCLUDE YOUR CHILD IN THE DISCUSSION - AFTER ALL, THE ROOM IS FOR THEM”

OLEG KLODT

- Instead of the tired-old idea of designing a child's bedroom in a different style to the rest of the apartment, we aim to weave their bedroom into the overall scheme of the entire apartment interior.
- All kids love to play at making houses and tents, and their parents like to create playhouses, so we design niches beneath the beds. Of course, the primary idea is to place the bed into the layout - but it goes on to be a playspace for the child, too.
- 與其跟隨過往做法，不如在孩子房採用與全屋其他空間與別不同的設計方案，跟整體室內裝潢組合交織。
- 孩子都喜歡砌屋和帳篷，父母也傾向打造玩具屋，所以我們會在睡床下設計小角落。當然，最重要還是把睡床融入佈局中，但也需要配合適合孩子的玩樂區。

“PUT SAFETY AND PRACTICALITY FIRST. AVOID SYNTHETIC MATERIALS AND INVEST IN SUSTAINABLY SOURCED PIECES”

- Almost all our new construction includes double-glazed windows. Not only do they block noise, but they also regulate temperature, making them much more energy-efficient.
- Bunk beds with multifunctional study areas and storage underneath create fun spaces. Kids find it special when they crawl into bed on their private upper level; their friends also love it.
- 我們幾乎所有新結構項目均配上雙層玻璃窗，不但能阻隔噪音，更能調節溫度，有效節能。
- 雙層床下方配合多用途學習空間和儲物元素，讓孩子攀上上層的私密睡床層時能有獨特感覺。孩子的朋友對此也讚不絕口。

“WE SPECIALISE IN CREATING CLEAN AIR FOR OUR PROJECTS - THAT'S ESPECIALLY IMPORTANT HERE”
